

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Aegon Ethical Corporate Bond Fund

a sub-fund of Aegon Asset Management UK ICVC

Sterling Class B - Accumulation shares (ISIN: GB00B018K352)

This fund is managed by Aegon Asset Management UK plc (the authorised corporate director ("ACD")).

Objectives and investment policy

Objective: to provide a combination of income and capital growth over any 7 year period.

Policy: The Fund operates an ethical screen which means that the Fund may not invest in particular industries and sectors. In all cases, the investments of the Fund will meet the Fund's predefined ethical criteria.

The Fund will invest at least 80% in a portfolio of investment grade corporate bonds issued anywhere in the world.

Investment grade corporate bonds are bonds issued by companies whose credit rating is deemed to be investment grade, defined as Baa3 or higher by Moody's Investor Services (Moody's) BBB- or higher by Standard & Poor's (S&P) or BBB- or higher by Fitch, or their respective successors or equivalents.

The Fund may also invest up to 10% in high yield corporate bonds issued anywhere in the world.

High yield corporate bonds are considered by the investment manager to be bonds issued by companies whose credit rating is defined as Ba1 or below by Moody's or BB+ or below by Standard and Poor's or BB+ or below by Fitch or their respective successors or equivalents. High yield bonds also include non-rated instruments.

Bond investments will be denominated in Sterling.

The Fund is actively managed and the ACD adjusts the Fund's credit exposure and duration (interest rate risk) based on an analysis of the prevailing economic and market conditions.

Subject to its custom-defined ethical criteria, the Fund will also seek to achieve diversification across individual issuers and sectors when constructing the portfolio.

To the extent that the Fund is not fully invested as set out above, the Fund may also invest in other transferable securities, collective investment schemes (up to 10% of Net Asset Value and which may include schemes managed by the ACD or its affiliates), money market instruments, deposits and cash and near cash. It is intended that investment in any other collective investment schemes will be predominately in approved money market instruments.

Other information

You can buy, sell or exchange the Fund's shares on any business day (see 'Dealing Day' in the Prospectus Definitions for more information).

Income the Fund receives will be reinvested and automatically reflected in the value of your shares.

The Fund is not managed in reference to any index or benchmark

It is expected that the Fund will be held as part of a diversified portfolio which may include other assets such as bonds, equities, property and cash.

Risk and reward profile

The risk/reward profile shows the risk of investing in the Fund, based on the rate at which its value has changed in the past. This Fund has the above risk/reward rating because bond prices can be affected by political or economic events, changes in exchange rates, and changes in interest rates.

The Fund's category is not guaranteed and may change over time. It is calculated using historical data, which may not be a reliable indication for the future. Category 1 does not mean 'risk free'.

The following risks which are not, or are not fully, reflected in the risk/reward profile are also relevant to the Fund:

Credit: An issuer of bonds may be unable to make payments due to the Fund (known as a default). The value of bonds may fall as default becomes more likely. Both default and expected default may cause the Fund's value to fall. High yield bonds generally offer higher returns because of their higher default risk and investment grade bonds generally offer lower returns because of their lower default risk.

Liquidity: The Fund's value may fall if bonds become more difficult to trade or value due to market conditions or a lack of supply and demand. This risk increases where the Fund invests in high yield bonds.

Interest Rate Risk: Bond values are affected by changes in interest rates. When interest rates rise, the value of the Fund is likely to fall. Full details of risks are disclosed in the section 'Risk Factors' in the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.47%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are the maximum figures, and in some cases you may pay less. You can find out specific charges which apply to your investment by contacting your financial adviser, distributor, or by contacting us using the details given in the Practical Information section.

The ongoing charge is based on expenses for the year to 31 December 2022. This figure may vary from year to year. It excludes any portfolio transaction costs (except in the case of an entry/exit charge paid by the Fund when buying and selling shares in another fund).

Switches or Conversion: 1st 4 in any calendar year are free, and subject to a charge of 1.5% on each transaction thereafter.

More detailed information on charges can be found in the 'Fees and Expenses' section of the Prospectus.

Past performance

Source: Lipper

Past performance is not a guide to future performance.

Fund launch date: 28 April 2000

Share class launch date: 03 June 2004

Performance is calculated in GBP.

The past performance calculation does not take into account the entry and exit charges but does take into account the ongoing charge, as shown in the 'Charges' section.

Note: On 7th September 2020 the name of the Fund changed from Kames Ethical Corporate Bond Fund to Aegon Ethical Corporate Bond Fund.

Source: Lipper

Practical information

Aegon Asset Management UK ICVC is a UK UCITS scheme structured as an umbrella company with various sub-funds, with segregated liability between sub-funds. This document describes one sub-fund of the UK UCITS; the Prospectus and the Report and Accounts are prepared for the entire UK UCITS.

You can exchange your holdings into another share class of the Fund, or another sub-fund of the UK UCITS, at any time. More detailed information on exchanging can be found in the 'Buying, Redeeming, Switching and Conversion of Shares' section of the Prospectus.

The assets and liabilities of the Fund are segregated by law. Accordingly, the assets of this Fund belong exclusively to it and may not be used to meet the liabilities of, or claims against, any other fund within the Aegon Asset Management UK ICVC. Any liability incurred on behalf of, or attributable to, the Fund shall be discharged solely out of the assets of the Fund.

The depositary is Citibank UK Ltd.

The prices of shares will be published daily on our website (www.aegonam.com).

Further information about the Fund and copies of the Prospectus and the latest Annual and Semi-Annual Report and Accounts can be obtained, free of charge, on our website (www.aegonam.com). These documents are available in English.

You should be aware that tax legislation in the UK (where the Fund is authorised) may have an impact on your personal tax position.

Aegon Asset Management UK plc may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.

Details of the up to date remuneration policy of Aegon Asset Management UK plc ("the Company"), including but not limited to a description of how remuneration and benefits are calculated and the identity of persons responsible for awarding the remuneration and benefits, are available at www.aegonam.com. A paper copy will be available free of charge upon request at the registered office of the Company.

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

CT Responsible Global Equity Fund

Share Class: 2 Acc, a Fund of Columbia Threadneedle (UK) ICVC V (ISIN GB0033145045)
This Fund is managed by Columbia Threadneedle Fund Management Limited.

Objectives and investment policy

The objective is to capital growth over the long term (at least 5 years). The Manager seeks to achieve this by investing at least 80% in shares of companies from anywhere in the world. The Manager invests only in assets which meet the Fund's responsible investment criteria.

The Investment Manager integrates environmental, social and governance ("ESG") factors into its routine analysis. Through this process, the Investment Manager: (1) avoids investments that are contrary to the goals of making positive contributions to society and/or the environment, taking into account both product based exclusions and conduct based exclusions; (2) predominantly invests in companies that provide sustainable solutions or that make positive contributions to society and/or the environment; and (3) improves companies by selecting those that, in the Investment Manager's opinion, will benefit from active investor engagement, leading to reduced risk, improved performance, best practices and, overall, long-term investor value.

To the extent that the Fund is not fully invested in shares, the Fund may also invest in other transferable securities, other collective investment schemes (which may include schemes managed by Columbia Threadneedle Investments), money market instruments, warrants, cash and near cash. The Fund may use derivatives for the purposes of hedging. The Fund is actively managed. The Manager believes that an appropriate comparator benchmark for reviewing fund performance is the MSCI World TR index, given the investment policy of the Fund and the approach taken by the manager. The Fund is not constrained by this benchmark and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition. Any income earned by this share class will be reinvested back into the share class to help boost the value of the share. There is no minimum holding period for this Fund. However, it may not be appropriate for investors who plan to withdraw their money in under 5 years. You may buy or sell shares daily on demand (but not weekends or UK bank holidays or other days when the Fund is not open for dealing). Orders to buy or sell must be received by 12 noon (UK time) to receive the price calculated at that day's valuation point. We are not required to hold monies arising from the purchase and sales of shares in our funds in a client money bank account and hold these monies in our own bank account, utilising the FCA's permitted one-day window while carrying out a delivery versus payment transaction for the purpose of settling transactions in relation to units in the Fund. In the exceptional event that a transaction is not processed within this one-day window, any cash will be held in a client bank account. No interest will be paid to investors on cash held on a client bank account.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Historical data may not be a reliable indicator of the Fund's future risk and reward profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean 'risk free'. The value of your investment may fall as well as rise.

The category is based on the rate at which the value of the investments held by the Fund have moved up and down in the past.

The indicator does not adequately reflect the following risks of investing in particular assets, which may impact on future investment return:

Derivative Risk: derivative values rise and fall at a greater rate than equities and debt instruments. Loses can be greater than the initial investment.

Liquidity Risk: the ability to buy and sell assets at a favourable price may be affected by a low level of counterparties willing to enter into a transaction with the Fund.

Ethical Screening Risk: the screening out of sectors or companies on ethical grounds may mean the Fund is more sensitive to price swings than an equivalent unscreened fund.

Currency Risk: your investment may be adversely affected by changes in currency exchange rates.

Emerging Markets Risk: this Fund invests in emerging markets which are less developed and have additional legal and political risks.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	0.79%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

The ongoing charges figure is at 30/11/2022.

It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units in another collective investment undertaking.

For more information about charges, please see the section entitled Fees and Expenses in the Fund's prospectus, which is available at www.columbiathreadneedle.co.uk.

Past performance

Source: FE fundinfo 2024

You should be aware that past performance is not a guide to future performance.

Fund launch date: 13/10/1987.

Share/unit class launch date: 15/08/2003.

Performance is calculated in GBP.

The chart shows how much the Fund increased or decreased in value as a percentage in each year, net of charges (excluding entry charge), and net of tax. Index returns are gross of tax.

* MSCI World

Practical information

This document is issued by Columbia Threadneedle Fund Management Limited, a wholly owned subsidiary of Columbia Threadneedle Investments UK International Limited.

Further information regarding the Fund including copies of the prospectus, annual and half yearly report and accounts can be obtained free of charge from Retail Sales Support, Columbia Threadneedle Investments, 6th Floor, Quartermile4, 7a Nightingale Way, Edinburgh EH3 9EG, telephone: Sales Support on 0800 085 0383, email: sales.support@columbiathreadneedle.com or electronically at www.columbiathreadneedle.co.uk.

The Fund is part of Columbia Threadneedle (UK) ICVC V. You may switch investment between other funds or share classes of Columbia Threadneedle (UK) ICVC V. An entry charge may apply. Details on switching are provided in the Fund's prospectus.

The assets and liabilities are segregated by law between the different funds of Columbia Threadneedle (UK) ICVC V. This means that the Fund's assets are held separately from other funds. Your investment in the Fund will not be affected by any claims made against any other fund in Columbia Threadneedle (UK) ICVC V.

Details of the up to date remuneration policy including but not limited to a description of how remuneration and benefits are calculated will be available on www.columbiathreadneedle.co.uk when and in so far as available.

Other practical information, including the latest published price for the Fund is available on our website www.columbiathreadneedle.co.uk.

The Depositary for the Fund is State Street Trustees Limited.

The tax legislation of the United Kingdom may have an impact on your personal tax position depending on your country of residence.

Columbia Threadneedle Fund Management Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus for the Fund.

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

CT Responsible UK Equity Fund

Share Class: 2 Acc, a Fund of Columbia Threadneedle (UK) ICVC V (ISIN GB0033396481). This Fund is managed by Columbia Threadneedle Fund Management Limited.

Objectives and investment policy

The objective is to achieve capital growth with some income, over the long term (at least 5 years). The Fund invests only in assets which meet the Fund's predefined responsible investment criteria. The Fund invests at least 80% in shares of UK companies. These are companies in any economic sector and of any market capitalisation that may be listed, quoted or traded in the UK or elsewhere but which are incorporated, domiciled or conduct a significant portion of their business in the UK.

As part of its investment process, the Investment Manager integrates environmental, social and governance ("ESG") factors into its routine analysis. Through this process, the Investment Manager: (1) avoids investments that are contrary to the goals of making positive contributions to society and/or the environment, taking into account both product based exclusions and conduct based exclusions; (2) invests predominantly in companies that meet high standards in how they operate, based on an assessment of their policies and performance with respect to overall sustainability management; and (3) improves companies by selecting those that, in the Investment Manager's opinion, will benefit from active investor engagement, leading to reduced risk, improved performance, best practices and, overall, long-term investor value. To the extent that the Fund is not fully invested in shares of UK companies, the Fund may also invest in other transferable securities (including, from time to time at the Investment Manager's discretion, shares of non-UK companies), collective investment schemes (which may include schemes managed by Columbia Threadneedle Investments), money market instruments, deposits, warrants, cash and near cash. The Fund may use derivatives for the purposes of efficient portfolio management only. The Fund is actively managed. The Manager believes that an appropriate comparator benchmark for reviewing fund performance is the FTSE All-Share index, given the investment policy of the Fund and the approach taken by the manager. The Fund is not constrained by this benchmark and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition.

Any income earned by this share class will be reinvested back into the share class to help boost the value of a share. There is no minimum holding period for this Fund. However, it may not be appropriate for investors who plan to withdraw their money in under 5 years. You may buy or sell shares daily on demand (but not weekends or UK bank holidays or other days when the Fund is not open for dealing). Orders to buy or sell must be received by 12 noon (UK time) to receive the price calculated at that day's valuation point. We are not required to hold monies arising from the purchase and sales of shares in our funds in a client money bank account and hold these monies in our own bank account, utilising the FCA's permitted one-day window while carrying out a delivery versus payment transaction for the purpose of settling transactions in relation to units in the Fund. In the exceptional event that a transaction is not processed within this one-day window, any cash will be held in a client bank account. No interest will be paid to investors on cash held on a client bank account.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards, lower risk Typically higher rewards, higher risk

Historical data may not be a reliable indicator of the Fund's future risk and reward profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean 'risk free'. The value of your investment may fall as well as rise.

The category is based on the rate at which the value of the investments held by the Fund have moved up and down in the past.

The indicator does not adequately reflect the following risks of investing in particular assets, which may impact on future investment return:

Derivative Risk: derivative values rise and fall at a greater rate than equities and debt instruments. Loses can be greater than the initial investment.

Liquidity Risk: the ability to buy and sell assets at a favourable price may be affected by a low level of counterparties willing to enter into a transaction with the Fund.

Smaller Companies Risk: smaller companies carry a higher degree of risk and their value can be more sensitive to market movement.

Ethical Screening Risk: the screening out of sectors or companies on ethical grounds may mean the Fund is more sensitive to price swings than an equivalent unscreened fund.

An investment style bias can impact a Fund's performance relative to its benchmark in a positive or negative way. No investment style performs well in all market conditions. When one style is in favour another may be out of favour. Such conditions may persist for short or long periods. A Fund exhibits a growth style bias relative to its benchmark if the majority of the Fund invests in companies with above average growth rates, or good growth potential (based on indicators such as earnings and sales growth) relative to its benchmark. However, there is no guarantee that such companies will continue to show such characteristics in the future. A Fund's investment style may also change over time.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	0.79%

KEY INVESTOR INFORMATION

EDENTREE RESPONSIBLE AND SUSTAINABLE

EUROPEAN EQUITY FUND

SHARE CLASS A GB0008446626

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

This fund is a sub-fund of EdenTree Investment Funds – Series 1, an open ended investment company managed by EdenTree Investment Management Limited as the Authorised Corporate Director.

OBJECTIVES AND INVESTMENT POLICY

To achieve long-term capital growth over five years or more with an income through a diversified portfolio of European (ex-UK) companies.

The EdenTree Responsible and Sustainable European Equity Fund aims to invest at least 80% in European (ex-UK) companies by investing in companies which make a positive contribution to society and the environment through sustainable and socially responsible practices.

The portfolio will consist of at least 80% listed securities but the Manager may also invest in units in collective investment schemes, money-market instruments, derivatives and forward transactions, deposits, nil and partly-paid securities, bonds, convertible bonds, cash and near cash as deemed economically appropriate to meet the Fund's objective.

The Fund seeks to avoid investment in certain areas such as companies which have a material involvement (10% or more) in alcohol and tobacco production, weapon production, gambling, publication of violent or explicit materials, oppressive regimes, companies using animals to test cosmetic or household products, intensive farming, fossil fuel exploration and production and high interest lending.

The Fund favours companies that follow good Business Ethics, Corporate Governance, Employment & Labour practices, Environment and Climate Management, Human Rights, and Community Relations and is particularly positive on companies that contribute to Education, Health & Wellbeing, Social Infrastructure and Sustainable Solutions. We assess a diverse set of indicators of a company's approach to sustainability during our screening process.

Further details of EdenTree's Responsible and Sustainable Investment Policy are available on request or can be downloaded from our website at www.edentreeim.com

We do not currently intend to use derivatives for any purpose other than the efficient management of the Fund. Derivatives are financial instruments that can provide ways of benefiting from movements (up or down) in the price of underlying assets, such as stocks or bonds, without taking ownership of the assets themselves.

You may buy and sell shares on any day on which the London Stock Exchange is open for business.

Any income on the Fund will be paid out to you or you may choose to have it reinvested by purchasing additional shares.

The Fund may not be appropriate if you plan to withdraw your money within 5 years.

More information on the investment policy can be found in the full Prospectus which is available at www.edentreeim.com/literature

RISK AND REWARD PROFILE

Lower risk =
Typically lower rewards

Higher risk =
Typically higher rewards

- The risk category above is not a measure of capital loss or gains, but of how very significant the rises and falls in the Share Class price have been historically.
- For example a Share Class whose price has experienced very significant rises and falls will be in a higher risk category, whereas a Share Class whose price has experienced less-significant rises and falls will be in a lower risk category.
- As the Share Class risk category has been calculated using historical data, it may not be a reliable indication of the Share Class future risk profile.
- Please note that the Share Class risk category may change in the future and is not guaranteed. The lowest risk category does not mean a risk-free investment.
- The Share Class is in risk category 6 as its price has experienced very significant rises and falls historically.

What risks are associated with this fund?

- The value of your investment and the income you get from it may fall as well as rise and you could get back less than you put in. What you get back when you cash in your investment will depend on investment performance.
- The entire market of European stocks and shares might decline. Most of the assets will be invested in European stockmarkets so could be affected by any change in these markets.
- Selecting stocks due to our ethical criteria means that the choice of stocks is limited to a subset of the stockmarket and this could lead to greater volatility.
- When investing in assets which are in currencies other than Sterling, exchange rate fluctuations can have a positive or negative impact on the value of your investment.

More details on all of the risks mentioned above can be found in the full Prospectus.

CHARGES FOR THIS FUND

The charges you pay are used to cover the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge 0%

Exit charge None

This is the maximum that might be taken out of your money (before it is invested) (before the proceeds of your investment are paid out).

Charges taken from the Fund over a year

Ongoing charges 1.30%

Charges taken from the Fund under specific conditions

Performance fee None

The entry charge shown is a maximum figure. In some cases you might pay less – you can find this out from your financial adviser or distributor.

The ongoing charges figure is based on expenses for the year ending 31 December 2023. This figure may vary from year to year and excludes portfolio transaction costs.

If you switch Funds within the EdenTree Investment Management range you will be charged a maximum 1% entry charge on your new Fund. The switching charge is currently set to zero.

For more information about charges, please see Appendix 1 of the Fund's Prospectus, which is available at www.edentreeim.com/literature

Janus Henderson

Global Sustainable Equity Fund Class I Acc ISIN: GB00B71DPP64

A sub-fund of Janus Henderson Sustainable/Responsible Funds, a UK OEIC managed by Janus Henderson Fund Management UK Limited.
Fund Currency: GBP Share Class Currency: GBP

Objective and investment policy

Objective

The Fund aims to provide capital growth over the long term (5 years or more) by investing in companies whose products and services are considered by the Investment Manager as contributing to positive environmental or social change.

Investment policy

The Fund invests at least 80% of its assets in shares (also known as equities) of companies, of any size, in any industry, in any country. The Fund will avoid investing in companies (in some cases subject to thresholds) that the Investment Manager considers could contribute to environmental or societal harm, as detailed in the "Exclusionary Approach" section in the Prospectus, and invest in companies that derive at least 50% of their revenues from products and services that are considered by the Investment Manager as contributing to positive environmental or social change and thereby have an impact on the development of a sustainable global economy.

The Fund may also invest in other assets including cash.

The Investment Manager may use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the MSCI World Index, which is broadly representative of the companies in which it may invest, as this can provide a useful comparator for assessing the Fund's performance. The Investment Manager has discretion to choose investments for the Fund with weightings different to the index or not in the index.

As an additional means of assessing the performance of the Fund, the IA Global sector average, which is based on a peer group of broadly similar funds, may also provide a useful comparator.

Strategy

Investee companies will typically be aligned with megatrends identified by the Investment Manager; these include climate change, resource constraints, growing populations, and ageing populations. The Investment Manager then, within its thematic framework of environmental and social investment themes, seeks to construct a differentiated and well diversified global portfolio of companies,

based on the belief that superior returns can be generated by companies that tackle environmental and social challenges and have an impact on the development of a sustainable global economy. These companies should have attractive financial attributes such as persistent revenue growth and durable cash flows, as well as exhibiting strong management of environmental, social and corporate governance risks. Examples of themes the Investment Manager has identified include efficiency, cleaner energy, water management, environmental services, sustainable transport, sustainable property & finance, safety, quality of life, knowledge & technology and health. More product-specific information, including our investment principles approach, can be found in the Document Library of the website at www.janushenderson.com. Further information as to how Janus Henderson approach ESG, including Janus Henderson's "ESG Investment Policy", can be found in the "About Us - Environmental, Social and Governance (ESG)" section of the website at www.janushenderson.com.

Other Information The Investment Manager will seek to promote environmental, social and/or governance (ESG) principles in managing the Fund, which may include the exclusion of issuers that the Investment Manager considers could contribute to significant ESG harm, as further described in the prospectus.

Distribution policy The Fund offers accumulation shares (shares in which net income is retained within the price) and income shares (shares in which net income may be paid out to investors).

Recommendation This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

You can buy, sell or switch shares in the Fund on any dealing day and according to certain restrictions, both defined in detail in the Company's Prospectus.

For an explanation of some of the terms used in this document, please visit the glossary on our website at www.janushenderson.com.

Risk and reward profile

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The rating above is based on the historic volatility of the share class. Historic data may not be a reliable indication of the future risk profile of the Fund. The rating is not guaranteed and may change over time.

The share class appears at 6 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in Net Asset Value in the past five years than those in lower categories. The lowest category does not mean risk free.

Other material risks not captured by the rating:

Equities Shares/Units can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result.

Smaller Companies Shares of small and mid-size companies can be more volatile than shares of larger companies, and at times it may be difficult to value or to sell shares at desired times and prices, increasing the risk of losses.

Investment Style - Growth The Fund follows a growth investment style that creates a bias towards certain types of companies. This may result in the Fund significantly underperforming or outperforming the wider market.

Sustainable Investment The Fund follows a sustainable investment approach, which may cause it to be overweight and/or underweight in certain sectors and thus perform differently than funds that have a similar objective but which do not integrate sustainable investment criteria when selecting securities.

Derivatives The Fund may use derivatives with the aim of reducing risk or managing the portfolio more efficiently. However this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

Exchange Rates If the Fund holds assets in currencies other than the base currency of the Fund, or you invest in a share/unit class of a different currency to the Fund (unless hedged, i.e. mitigated by taking an offsetting position in a related security), the value of your investment may be impacted by changes in exchange rates.

Liquidity Securities within the Fund could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

Counterparty Risk and Operational Risk The Fund could lose money if a counterparty with which the Fund trades becomes unwilling or unable to meet its obligations, or as a result of failure or delay in operational processes or the failure of a third party provider.

For more information please see the Company's Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

One-off charges taken before or after you invest*

Entry Charge	0.00%
Exit Charge	0.00%**

* The charges shown are maximum figures. In some cases you may pay less.

** Subject to a charge of up to 3.00% where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days).

Past performance

Charges taken from the Fund over a year

Ongoing Charges	0.85%
-----------------	-------

The ongoing charges are based on actual annualised expenses for the period ending 31 March 2023. Ongoing charges may vary from year to year.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another Fund.

For more information about Charges please see the Company's Prospectus.

The past performance is calculated in GBP.

The Fund was launched in July 1991 and the share class was launched in July 2012.

Past performance does not predict future returns.

The past performance takes into account all charges except one-off charges.

The Fund does not aim to track the performance of the benchmark.

Practical information

Depository: NatWest Trustee and Depository Services Limited.

To obtain more information: This Key Investor Information Document may not contain all the information you need.

For the last published price of shares in the Fund or any additional information on the Fund, or to obtain the Company's prospectus or the annual/semi-annual report, please visit www.janushenderson.com. Documents are available free of charge in English and certain other languages. You may also contact the registered office of the Fund at 201 Bishopsgate, London EC2M 3AE, or your local representative office.

Tax: Investors should note that the tax legislation that applies to the Fund may have an impact on the personal tax position of their investment in the Fund.

Contact your adviser to discuss tax treatment, suitability of this investment, and other questions.

Notices: Janus Henderson Fund Management UK Limited may be held liable solely on the basis of any statement contained in this document

that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the Fund.

The assets of each sub-fund are segregated, meaning that each sub-fund is insulated from any losses or claims associated with the other sub-funds.

Further information about dealing and switching to other share classes of this Fund or other Funds in this OEIC may be obtained by visiting www.janushenderson.com or found in the Company's prospectus.

The details of the up-to-date remuneration policy of the Manager are available at www.janushenderson.com. A paper copy of the remuneration policy will be made available free of charge upon request. These include a description of how pay and benefits are worked out and the people or committee members responsible for awarding them.

The Fund and Janus Henderson Fund Management UK Limited are authorised in the UK and regulated by the Financial Conduct Authority ("FCA").

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Objectives, Process and Policies

INVESTMENT OBJECTIVE

The Fund aims to provide positive investment returns, before fees, over a rolling 3 year period in all market conditions by investing globally in a portfolio that is positioned towards securities with positive ESG characteristics, using derivatives where appropriate. A positive return is not guaranteed over this or any time period and a capital loss may occur.

INVESTMENT PROCESS

Investment approach

- Uses an investment process based on macro research to identify global investment themes and opportunities.
- Flexible and focused approach to take advantage of global trends and changes through traditional and non-traditional assets.
- Fully integrated, risk management framework provides detailed portfolio analysis.
- Invests in securities exhibiting positive ESG characteristics by adhering to ESG exclusions and positioning the portfolio towards issuers with positive ESG characteristics.

Benchmark ICE BofA SONIA Overnight Rate Index

Benchmark uses and resemblance

- The Fund is actively managed. The Benchmark is a Performance Comparator however the Fund will be managed without reference to its Benchmark. The Benchmark has been chosen as it reflects the investment strategy for the Fund.

POLICIES

Main investment exposure Invests either directly or through derivatives, in a portfolio that is positioned towards securities with positive ESG characteristics, comprised of debt securities, equities, commodity index instruments and convertible securities. The Fund may also invest in currencies, cash and cash equivalents. Issuers of these securities may be located in any country, including emerging markets. "Positive Tilt" is described further in the section headed "ESG Integration and Sustainable Investing Approaches"

The Fund may invest up to 100% in government and public securities. The Fund may also invest in below investment grade and unrated debt securities.

The Fund may invest up to 10% of its assets in onshore PRC securities including China A-Shares through the China-Hong Kong Stock Connect Programmes and onshore debt securities issued within the PRC through China-Hong Kong Bond Connect.

Allocations may vary significantly and the Fund may be concentrated in, or have net long or net short exposure to, certain asset classes, industry sectors, markets or currencies from time to time.

Securities exhibiting positive ESG characteristics are selected through the use of proprietary research and third-party data. The assessment process has 2 steps: 1) the exclusionary framework, 2) the identification of securities exhibiting positive ESG characteristics.

Step 1: The Fund excludes certain sectors, companies / issuers or practices from the investment universe based on specific values or

norms based criteria. The exclusion policy for the Fund is available at www.jpmmorgan.co.uk/investor.

Furthermore, the Investment Manager will not have long exposure in indices where 30% or more of the underlying securities are on the exclusions list. In addition to this rule, the aggregate long exposure via derivatives to excluded securities will not exceed 5% net equity exposure and this exposure will be monitored to ensure alignment to the exclusion policy. Measuring the exposure involves assessing the price sensitivity of the derivatives to changes in the price of the underlying securities..

Step 2: Through applying a defined set of ESG scoring criteria, the Investment Manager, invests at least 70% of long sovereign debt exposures and 70% of long individual company equity exposures in securities exhibiting positive ESG. In addition to this minimum requirement, positive ESG characteristics are also identified according to the Investment Manager's proprietary assessment of a company / issuer's management of ESG issues relevant to the specific industry, activity or country and exposure to areas such as climate risk, green transport and infrastructure, social advancement and health and wellness.

The Investment Manager carries out a proprietary assessment of ESG criteria to identify any risks and opportunities of potential investments across debt securities and equities. The assessment is based on proprietary internal research and incorporates external insights as well as dedicated ESG analysis and scoring from third-party providers. Such assessment generally includes, without limitation, an analysis of issuer regulatory filings, annual reports, websites, direct and regular communication with issuers, media, third-party research and data providers and government officials, economic surveys and reports. This analysis and the relevant data is inputted into the Investment Managers proprietary assessment and informs investment decisions. The proprietary assessment is ongoing and the Investment Manager continually reviews the holdings against the ESG criteria.

Other investment exposures Small capitalisation companies and collective investment schemes.

Derivatives Used for: investment purposes, efficient portfolio management; hedging. Types: see [Fund Derivative Usage](#) table under [How the Funds Use Derivatives, Instruments and Techniques](#). TRS including CFD: 28% expected; 105% maximum. Global exposure calculation method: absolute VaR. Expected level of leverage from derivatives: 500% indicative only. Leverage may significantly exceed this level from time to time.

Currencies Fund Base Currency: GBP. Currencies of asset denomination: any. Hedging approach: flexible.

Redemption and Dealing Shares of the Fund may be redeemed on demand, with dealing normally on a daily basis.

Distribution Policy This Share Class will reinvest income. For an explanation of some of the terms used in this document, please visit the glossary on our website at <https://am.jpmmorgan.com/gb/en/asset-management/per/funds/administrative-information/>.

Risk and Reward Profile

Lower risk Potentially lower reward

Higher risk Potentially higher reward

The above rating is based on the historic volatility of the Net Asset Value of the Share Class over the last five years and may not be a reliable indication of the future risk profile of the Share Class.

The risk and reward category shown above is not guaranteed to remain unchanged and may change over time.

A Share Class with the lowest risk rating does not mean a risk-free investment.

Why is this Share Class in this category? This Share Class is classified in category 4 because its Net Asset Value has shown medium fluctuations historically.

OTHER MATERIAL RISKS

The Fund is subject to **Investment risks** and **Other associated risks** from the techniques and securities it uses to seek to achieve its objective. The table on the right explains how these risks relate to each other and the **Outcomes to the Shareholder** that could affect an investment in the Fund.

Investors should also read [Risk Descriptions](#) in the Prospectus for a full description of each risk.

Investment risks Risks from the Fund's techniques and securities

Techniques	Convertible securities	Emerging markets
Concentration	Debt securities	Equities
Derivatives	– Government debt	Smaller companies
Hedging	– Investment grade debt	UCITS, UCIs and ETFs
Short positions	– Below investment grade debt	
Securities	– Unrated debt	
China		
Commodities		

Other associated risks Further risks the Fund is exposed to from its use of the techniques and securities above

Credit Liquidity	Currency Market	Interest rate
------------------	-----------------	---------------

Outcomes to the Shareholder Potential impact of the risks above

Loss Shareholders could lose some or all of their money.	Volatility Shares of the Fund will fluctuate in value.	Failure to meet the Fund's objective.
---	---	--

Charges

One-off charges taken before or after you invest		
Entry charge	None	This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.
Exit charge	None	
Charges taken from this Share Class over a year		
Ongoing charge	0.75%	The ongoing charge is based on the last year's expenses to December 2022 and may vary from year to year.
Charges taken from this Share Class under certain specific conditions		
Performance fee	None	

- The actual entry and exit charges paid may be less. Information on charges can be obtained from the investor's financial adviser.
- The Prospectus permits a fee to be charged for switching between Funds but this fee is currently waived by the Authorised Corporate Director.
- Charges are used to pay the costs of running this Share Class. These charges reduce the potential growth of the investment.
- Further information about charges can be found in the "Share Classes and Costs" section of the Prospectus.

Past Performance

- Past performance is not a guide to future performance.
- Performance data has been calculated including tax, ongoing charges and portfolio transaction costs and excluding entry and exit charges, in GBP.
- Fund launch date: 2005.
- Share Class launch date: 2012.

- 1 This performance was achieved under circumstances that may no longer apply.
- 2 A different benchmark was used during this period.
- 4 A different benchmark was used during this period.

Practical Information

Depository The fund depository is NatWest Trustee and Depository Services Limited

Further Information A copy of the Prospectus and latest annual and semi-annual financial report in English can be downloaded or ordered online from www.jpmmorgan.co.uk/investor or are available free of charge upon request from our UK-based Investor Services Team on 0800 20 40 20 (or +44 1268 44 44 70 if calling from outside the UK) or by writing to J.P. Morgan Asset Management, Client Administration Centre, PO Box 12272, Chelmsford, CM99 2EL.

Share prices can be obtained online at www.jpmmorgan.co.uk/investor or by telephoning 0800 20 40 20 (or +44 1268 44 44 70 if calling from outside the UK).

Please note if you call J.P. Morgan Asset Management, calls may be recorded and monitored for security and training purposes.

Remuneration Policy The ACD's Remuneration Policy can be found on <https://am.jpmmorgan.com/gb/en/asset-management/gim/awm/legal/emea-remuneration-policy>. This policy includes details of how remuneration and benefits are calculated, including responsibilities and composition of the committee which oversees and controls the policy. A copy of this policy can be requested free of charge from the ACD.

Tax The Fund is subject to UK tax regulations. This may have an impact on an investor's personal tax position.

Legal Information JPMorgan Funds Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.

JPMorgan Fund ICVC consists of separate Funds, each of which issues one or more Share Classes. This document is prepared for a specific Share Class. The Prospectus and annual and semi-annual financial reports are prepared for JPMorgan Fund ICVC.

The Fund is part of JPMorgan Fund ICVC. The assets and liabilities of each fund in JPMorgan Fund ICVC are segregated by law. This means that the assets of the Fund belong exclusively to the Fund and will not be used to pay the liabilities of any other person or body, including JPMorgan Fund ICVC or any other Fund within JPMorgan Fund ICVC.

Switching and Conversion Investors may switch into Shares of another Fund of JPMorgan Fund ICVC or convert Shares in one Class in a Fund to Shares of another Class in the same Fund subject to meeting any relevant eligibility requirements and minimum holding amounts. Further information can be found in "section 4.3.10 - Switching and Conversion of Shares" of the Prospectus.

Privacy Policy You should note that, if you contact J.P. Morgan Asset Management by telephone, those lines may be recorded and monitored for legal, security and training purposes. Morgan Asset Management, acting as a data controller, in accordance with applicable data protection laws. Further information about processing activities of J.P. Morgan Asset Management can be found in the EMEA Privacy Policy, which is available at www.jpmmorgan.com/emea-privacy-policy. Additional copies of the EMEA Privacy Policy are available on request.

KEY INVESTOR
INFORMATION
DOCUMENT

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Liontrust Sustainable Future Corporate Bond Fund is a sub-fund of the Liontrust Sustainable Future ICVC and categorised as a UCITS scheme. This document is based upon the 2 Inc class (ISIN: GB0030029069). This Fund is managed by Liontrust Fund Partners LLP, a subsidiary of Liontrust Asset Management PLC.

Objective

- The Fund aims to deliver income with capital growth over the long term (5 years or more) through investment in sustainable securities.

Policy

- The Fund is considered to be actively managed in reference to the benchmark(s) in the performance table by virtue of the fact that it uses the benchmark(s) for performance comparison purposes. The benchmark(s) are not used to define the portfolio composition of the Fund and the Fund may be wholly invested in securities which are not constituents of the benchmark.
- The Fund will invest a minimum of 80% of its assets in investment grade corporate bonds that are sterling denominated or hedged back to sterling. All investments will be expected to conform to our social and environmental criteria as set out on the Liontrust website (liontrust.co.uk).
- The investment objective of the Fund will be achieved through investment in securities that provide or produce sustainable products and services as well as having a progressive approach to the management of environmental, social and governance ("ESG") issues.
- The Fund may also invest in government bonds, collective investment schemes (up to 10% of Fund assets), sub-investment grade bonds, other fixed income securities, money market instruments, warrants, cash and deposits.
- The Fund is permitted to use derivatives for the purposes of efficient portfolio management and for investment purposes.

Recommendation

- This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

How to buy

- You may buy or sell shares on a daily basis (but not weekends or Bank Holidays). Orders must be received by 11:59am for execution at 12:00 midday valuation point on the same day. Further details can be found at www.liontrust.co.uk.

Investment process

- Macroeconomic analysis is used to determine the managers' top down view of the world and this helps shape all aspects of portfolio construction and appetite for risk. After this, the managers aim to focus on high-quality issuers and believe this can reduce bond specific risk. Their assessment of quality is a distinctive part of their process, in which they combine traditional credit analysis with a detailed sustainability assessment based on their proprietary model.
- The fund managers assess individual bonds for whether they believe the bonds offer attractive long-term returns and for absolute and relative valuations. There is no point in investing in a bond merely because it is cheap relative to others in the sector if the fund managers believe the total returns are not attractive to the end investor.
- The fund managers seek the best value bonds issued by high-quality issuers across the capital structure, along the maturity curve and that have been issued in the primary credit markets (UK, US and Europe).

Risk and reward profile

- This Synthetic Risk and Reward Indicator (SRRI) is based on historical data and may not be relied upon to gauge the future risk profile of the Fund.
- The SRRI shown is not guaranteed to remain the same and may shift over time.
- The lowest category (1) does not mean 'risk free'.
- The Fund's risk and reward category has been calculated using the methodology set by the European Commission. It is based upon the rate by which the Fund or a representative fund or index's value has moved up and down in the past.
- The Fund is categorised 4 primarily for its exposure to a diversified portfolio of debt instruments along with a number of derivative positions.
- The SRRI may not fully take into account the following risks:
 - Bonds are affected by changes in interest rates and their value and the income they generate can rise or fall as a result;
 - the creditworthiness of a bond issuer may also affect that bond's value. Bonds that produce a higher level of income usually also carry greater risk as such bond issuers may have difficulty in paying their debts. The value of a bond would be significantly affected if the issuer either refused to pay or was unable to pay.
- The Fund can invest in derivatives. Derivatives are used to protect against currency, credit or interest rate moves or for investment purposes. There is a risk that losses could be made on derivative positions or that the counterparties could fail to complete on transactions.
- The Fund uses derivative instruments that may result in higher cash levels. Cash may be deposited with several credit counterparties (e.g. international banks) or in short-dated bonds. A credit risk arises should one or more of these counterparties be unable to return the deposited cash.
- The Fund may have both Hedged and Unhedged share classes available. The Hedged share classes use forward foreign exchange contracts to protect returns in the base currency of the Fund.
- The Fund may encounter liquidity constraints from time to time. Participation rates on advertised volumes could fall reflecting the less liquid nature of the current market conditions.
- Counterparty Risk: any derivative contract, including FX hedging, may be at

risk if the counterparty fails.

- ESG Risk: there may be limitations to the availability, completeness or accuracy of ESG information from third-party providers, or inconsistencies in the consideration of ESG factors across different third party data providers, given the evolving nature of ESG.
- For full details of the Fund's risks, please see the prospectus which may be obtained from Liontrust (address overleaf) or online at www.liontrust.co.uk.

SUSTAINABLE FUTURE CORPORATE BOND FUND

Charges for this fund

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

- This is the maximum that might be taken out of your money before it is invested.

Charges taken from the Fund over the year

Ongoing charges	0.56%
-----------------	-------

Charges taken from the Fund under certain specific circumstances

Performance fee	None
-----------------	------

- The entry and exit charges** shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser or fund platform if you are not using a financial adviser.
- The ongoing charges** figure is based on expenses as at 31 December 2022. This figure may vary from year to year. It excludes:
 - portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units/shares in another collective investment undertaking.
- For more information about charges and what is included in each charge, please see the Fund's prospectus, which is available electronically at www.liontrust.co.uk or visit the costs and charges page on our website at www.liontrust.co.uk/costs-and-charges.

Past performance

- Past performance is not a guide to future performance.** It has been calculated on the basis that any distributable income of the Fund has been reinvested. The past performance shown in the chart takes into account all charges except entry and exit charges.
- The Fund launch date is 19 February 2001.
- The 2 Inc share class launch date is 19 February 2001.
- The base currency of the Fund is pounds sterling.

	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022
Liontrust Sustainable Future Corporate Bond 2 Inc	1.8	9.8	0.5	10.5	7.2	-3.6	11.8	7.0	-2.0	-19.1

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Liontrust Sustainable Future Global Growth Fund is a sub-fund of the Liontrust Sustainable Future ICVC and categorised as a UCITS scheme. This document is based upon the 2 Acc class (ISIN: GB0030030067). This Fund is managed by Liontrust Fund Partners LLP, a subsidiary of Liontrust Asset Management PLC.

Objective

- The Fund aims to deliver capital growth over the long term (5 years or more) through investment in sustainable securities.

Policy

- The Fund is considered to be actively managed in reference to the benchmark(s) in the performance table by virtue of the fact that it uses the benchmark(s) for performance comparison purposes. The benchmark(s) are not used to define the portfolio composition of the Fund and the Fund may be wholly invested in securities which are not constituents of the benchmark.
- The Fund will invest in companies globally. All investments will be expected to conform to our social and environmental criteria as set out on the Liontrust website (liontrust.co.uk).
- The investment objective of the Fund will be achieved through investment in securities that provide or produce sustainable products and services as well as having a progressive approach to the management of environmental, social and governance ("ESG") issues.
- The Fund will typically invest 95% (minimum 90%) of its assets in equities or equity related derivatives but may also invest in collective investment schemes (up to 10% of Fund assets), corporate debt securities, other transferable securities, money market instruments, warrants, cash and deposits.
- Investments in emerging market securities will be limited to 20%.
- The Fund is permitted to use derivatives for the purposes of efficient portfolio management and for investment purposes.

Recommendation

- This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

How to buy

- You may buy or sell shares on a daily basis (but not weekends or Bank Holidays). Orders must be received by 11:59am for execution at 12:00 midday valuation point on the same day. Further details can be found at www.liontrust.co.uk.

Investment process

- The process starts with a thematic approach in identifying the key structural trends that will shape the global economy of the future. We currently invest in three transformative trends (Better Resource Efficiency; Improved Health; and Greater Safety and Resilience) and 20 themes within these trends such as technological and medical advancements.
- The team then invests in well run companies whose products and operations capitalise on these transformative changes.
- While themes are at the heart of the investment idea generation, there are three further criteria all potential holdings have to satisfy:
 - Broader sustainability of the company: While a company might have significant exposure to a theme, the team has to check how sustainable the rest of its activities are.
 - Business fundamentals: The team assesses a company's ability to generate high returns on equity. This includes analysis of the competitive dynamics facing the business and the resilience of its advantages versus competitors.
 - Financial modelling and valuation assessment: This information is used to construct financial models detailing the revenue, margin and earnings progression the company is likely to deliver over the next five years.
- Among the team's key differentiators is the fact that all the sustainable elements are integrated within a single team. Every team member is responsible for all aspects of financial and ESG relating to an investment decision. This means the team engages with companies across a broad range of issues relating to stages in their process, including screening criteria, sustainable investment themes and company specific ESG issues.

Risk and reward profile

- This Synthetic Risk and Reward Indicator (SRRI) is based on historical data and may not be relied upon to gauge the future risk profile of the Fund.
- The SRRI shown is not guaranteed to remain the same and may shift over time.
- The lowest category (1) does not mean 'risk free'.
- The Fund's risk and reward category has been calculated using the methodology set by the European Commission. It is based upon the rate by which the Fund or a representative fund or index's value has moved up and down in the past.
- The Fund is categorised 6 primarily for its exposure to Global equities.
- The SRRI may not fully take into account the following risks:
 - that a company may fail thus reducing its value within the Fund;
 - overseas investments may carry a higher currency risk. They are valued by reference to their local currency which may move up or down when compared to the currency of the Fund.
- The Fund may, under certain circumstances, invest in derivatives, but it is not intended that their use will materially affect volatility. Derivatives are used to protect against currencies, credit and interest rate moves or for investment purposes. There is a risk that losses could be made on derivative positions or that the counterparties could fail to complete on transactions. The use of derivatives may create leverage or gearing resulting in potentially greater volatility or fluctuations in the net asset value of the Fund. A relatively small movement in the value of a derivative's underlying investment may have a larger impact, positive or negative, on the value of a fund than if the underlying investment was held instead. The use of derivative contracts may help us to control Fund volatility in both up and down markets by hedging against the general market.
- The Fund may encounter liquidity constraints from time to time. The spread between the price you buy and sell shares will reflect the less liquid nature of the underlying holdings.
- The Fund may have both Hedged and Unhedged share classes available. The Hedged share classes use forward foreign exchange contracts to protect returns in the base currency of the Fund.
- Outside of normal conditions, the Fund may hold higher levels of cash which may be deposited with several credit counterparties (e.g. international banks). A credit risk arises should one or more of these counterparties be unable to return the deposited cash.
- Counterparty Risk: any derivative contract, including FX hedging, may be at risk if the counterparty fails.
- ESG Risk: there may be limitations to the availability, completeness or accuracy of ESG information from third-party providers, or inconsistencies in the consideration of ESG factors across different third party data providers, given the evolving nature of ESG.
- For full details of the Fund's risks, please see the prospectus which may be obtained from Liontrust (address overleaf) or online at www.liontrust.co.uk.

SUSTAINABLE FUTURE GLOBAL GROWTH FUND

Charges for this fund

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

- This is the maximum that might be taken out of your money before it is invested.

Charges taken from the Fund over the year

Ongoing charges	0.85%
-----------------	-------

Charges taken from the Fund under certain specific circumstances

Performance fee	None
-----------------	------

- The entry and exit charges** shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser or fund platform if you are not using a financial adviser.
- The ongoing charges** figure is based on expenses as at 31 December 2022. This figure may vary from year to year. It excludes:
 - portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units/shares in another collective investment undertaking.
- For more information about charges and what is included in each charge, please see the Fund's prospectus, which is available electronically at www.liontrust.co.uk or visit the costs and charges page on our website at www.liontrust.co.uk/costs-and-charges.

Past performance

- Past performance is not a guide to future performance.** It has been calculated on the basis that any distributable income of the Fund has been reinvested. The past performance shown in the chart takes into account all charges except entry and exit charges.
- The Fund launch date is 19 February 2001.
- The 2 Acc share class launch date is 19 February 2001.
- The base currency of the Fund is pounds sterling.

SUSTAINABLE FUTURE UK GROWTH FUND

KEY INVESTOR INFORMATION DOCUMENT

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Liontrust Sustainable Future UK Growth Fund is a sub-fund of the Liontrust Sustainable Future ICVC and categorised as a UCITS scheme. This document is based upon the 2 Acc class (ISIN: GB0030028764). This Fund is managed by Liontrust Fund Partners LLP, a subsidiary of Liontrust Asset Management PLC.

Objective

- The Fund aims to deliver capital growth over the long term (5 years or more) through investment in sustainable securities.

Policy

- The Fund is considered to be actively managed in reference to the benchmark(s) in the performance table by virtue of the fact that it uses the benchmark(s) for performance comparison purposes. The benchmark(s) are not used to define the portfolio composition of the Fund and the Fund may be wholly invested in securities which are not constituents of the benchmark.
- The Fund will invest in companies which are incorporated, domiciled or conduct significant business in the United Kingdom (UK). All investments will be expected to conform to our social and environmental criteria as set out on the Liontrust website (liontrust.co.uk).
- The investment objective of the Fund will be achieved through investment in securities that provide or produce sustainable products and services as well as having a progressive approach to the management of environmental, social and governance ("ESG") issues.
- The Fund will typically invest 95% (minimum 80%) of its assets in equities or equity related derivatives but may also invest in collective investment schemes (up to 10% of Fund assets), corporate debt securities, other transferable securities, money market instruments, warrants, cash and deposits.
- The Fund is permitted to use derivatives for the purposes of efficient portfolio management and for investment purposes.

Recommendation

- This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

How to buy

- You may buy or sell shares on a daily basis (but not weekends or Bank Holidays). Orders must be received by 11:59am for execution at 12:00 midday valuation point on the same day. Further details can be found at www.liontrust.co.uk.

Investment process

- The process starts with a thematic approach in identifying the key structural trends that will shape the global economy of the future. We currently invest in three transformative trends (Better Resource Efficiency; Improved Health; and Greater Safety and Resilience) and 20 themes within these trends such as technological and medical advancements.
- The team then invests in well run companies whose products and operations capitalise on these transformative changes.
- While themes are at the heart of the investment idea generation, there are three further criteria all potential holdings have to satisfy:
 - Broader sustainability of the company: While a company might have significant exposure to a theme, the team has to check how sustainable the rest of its activities are.
 - Business fundamentals: The team assesses a company's ability to generate high returns on equity. This includes analysis of the competitive dynamics facing the business and the resilience of its advantages versus competitors.
 - Financial modelling and valuation assessment: This information is used to construct financial models detailing the revenue, margin and earnings progression the company is likely to deliver over the next five years.
- Among the team's key differentiators is the fact that all the sustainable elements are integrated within a single team. Every team member is responsible for all aspects of financial and ESG relating to an investment decision. This means the team engages with companies across a broad range of issues relating to stages in their process, including screening criteria, sustainable investment themes and company specific ESG issues.

Risk and reward profile

- This Synthetic Risk and Reward Indicator (SRRI) is based on historical data and may not be relied upon to gauge the future risk profile of the Fund.
- The SRRI shown is not guaranteed to remain the same and may shift over time.
- The lowest category (1) does not mean 'risk free'.
- The Fund's risk and reward category has been calculated using the methodology set by the European Commission. It is based upon the rate by which the Fund or a representative fund or index's value has moved up and down in the past.
- The Fund is categorised 6 primarily for its exposure to UK equities.
- The SRRI may not fully take into account the following risks:
 - that a company may fail thus reducing its value within the Fund;
 - overseas investments may carry a higher currency risk. They are valued by reference to their local currency which may move up or down when compared to the currency of the Fund.
- The Fund may, under certain circumstances, invest in derivatives, but it is not intended that their use will materially affect volatility. Derivatives are used to protect against currencies, credit and interest rate moves or for investment purposes. There is a risk that losses could be made on derivative positions or that the counterparties could fail to complete on transactions. The use of derivatives may create leverage or gearing resulting in potentially greater volatility or fluctuations in the net asset value of the Fund. A relatively small movement in the value of a derivative's underlying investment may have a larger impact, positive or negative, on the value of a fund than if the underlying investment was held instead. The use of derivative contracts may help us to control Fund volatility in both up and down markets by hedging against the general market.
- The Fund may encounter liquidity constraints from time to time. The spread between the price you buy and sell shares will reflect the less liquid nature of the underlying holdings.
- The Fund may invest in companies listed on the Alternative Investment Market (AIM) which is primarily for emerging or smaller companies. The rules are less demanding than those of the official List of the London Stock Exchange and therefore companies listed on AIM may carry a greater risk than a company with a full listing.
- The Fund will invest in smaller companies and may invest a small proportion (less than 10%) of the Fund in unlisted securities. There may be liquidity constraints in these securities from time to time, i.e. in certain circumstances, the fund may not be able to sell a position for full value or at all in the short term. This may affect performance and could cause the fund to defer or suspend redemptions of its shares.
- The Fund may have both Hedged and Unhedged share classes available. The Hedged share classes use forward foreign exchange contracts to protect returns in the base currency of the Fund.
- Outside of normal conditions, the Fund may hold higher levels of cash which may be deposited with several credit counterparties (e.g. international banks). A credit risk arises should one or more of these counterparties be unable to return the deposited cash.
- Counterparty Risk: any derivative contract, including FX hedging, may be at risk if the counterparty fails.
- ESG Risk: there may be limitations to the availability, completeness or accuracy of ESG information from third-party providers, or inconsistencies in the consideration of ESG factors across different third party data providers, given the evolving nature of ESG.
- For full details of the Fund's risks, please see the prospectus which may be obtained from Liontrust (address overleaf) or online at www.liontrust.co.uk.

Rathbone Ethical Bond Fund (I-Class Income)

A sub-fund of Rathbone Unit Trusts
Fund Manager: Rathbone Unit Trust Management Limited
I-Class Income ISIN GB00B7FQJT36

Objectives and Investment Policy

We aim to deliver a greater total return than the Investment Association (IA) Sterling Corporate Bond sector, after fees, over any rolling five-year period. Total return means the return we receive from the value of our investments increasing (capital growth) plus the income we receive from our investments (interest payments). We use the IA Sterling Corporate Bond sector as a target for our fund's return because we aim to achieve a better return than the average of funds that are similar to ours.

We will invest at least 80% of our fund in corporate bonds with an investment-grade rating (AAA to BBB-), based on the average of the three largest rating agencies (Standard & Poor's, Moody's and Fitch). We can invest up to 20% of our fund in corporate bonds with a credit rating below BBB- or with no rating at all. Up to 10% of the fund can be invested directly in contingent convertible bonds. These specialist bonds, typically issued by banks and insurers, are forcibly replaced with shares if the issuer experiences heavy losses. At least 80% of the portfolio will be invested in sterling bonds or in overseas assets whose value we have hedged back to sterling. Hedging means we buy a financial instrument to swap the value of these assets into sterling to protect our investment from changes in the price of foreign currencies.

We actively manage our fund, which means we can choose what we invest in as long as it's in line with the investment objective and policy. Because of this, our fund's performance can diverge significantly from its benchmarks over shorter periods of time and therefore isn't appropriate for investors who plan to withdraw their money within five years.

Our fund's ethical and sustainability criteria are applied by Rathbone Greenbank Investments, an ethical research division of our company, which cannot be influenced by our fund managers. Companies are assessed against positive and negative social and environmental criteria.

For us to invest in a company, it must satisfy at least one of the following: strong employment practices, sustainable environmental practices or community engagement and commitment to human rights.

We do not invest in companies engaged in the following:

- Alcohol manufacturing
- Carbon-intensive industries
- Human rights abuses
- Alcohol retail
- Poor employment practices
- Nuclear power
- Animal welfare violations
- Polluting the environment
- Pornography
- Armaments
- Gambling
- Tobacco manufacturing

Our fund is designed for investors with a basic knowledge of bonds who seek income and growth. You should intend to invest for longer than five years, understand the risks of our fund and have the ability to bear a capital loss.

You can buy and sell units on each business day of the fund between 9am and 5pm. The fund offers accumulation units (units in which any income payable by the fund is reinvested) and income units (units in which any income received in the fund will be paid to the unitholder).

Risk and reward profile

These numbers rate how the Fund may perform and the risk of losing some or all of your investment. In general the potential for higher returns also implies a higher level of risk. However, the lowest category (1) does not mean a risk free investment.

The risk category is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time.

This indicator is a measure of the fund's past volatility (the extent and rapidity of up-and-down movements of the value of an investment). It may not be a reliable indication of the fund's future risk. The risk category shown is not a target or a guarantee and may change over time.

The risk indicator for this fund reflects the following:

- The emphasis on income helps the manager to maintain a moderate risk profile for the fund.

The value of investments in the fund and the income from them may go down as well as up and you may not get back your original investment when you sell your units.

During unusual market conditions, the risks normally experienced by the fund may increase significantly, and in addition, the fund may be subject to the following risks:

Liquidity risk: Some assets held in this fund can be hard to sell, especially in times of market stress. This could mean that if we had a lot of money redeemed from our fund in a short period of time, we might not be able to meet our obligations. In this circumstance, we are able to suspend our fund until we could find a buyer for these assets. This would result in you being unable to access your money.

Counterparty risk: A company that we deal with may renege on its obligations, costing you money.

Interest rate risk: Most bonds pay us a fixed amount over an agreed period of time. If interest rates rise these bonds become less valuable and we may be locked into an unfavourable investment. If interest rates fall these bonds become more valuable.

Credit risk: Bonds that we own can become more or less creditworthy and will fluctuate in value resulting in gains or losses. Bonds that we own may fail to meet their legal obligations, such as missing an interest payment. This is known as a 'default' and will result in a loss.

Operational risk: We rely on complex systems to ensure that trades are completed, our fund's assets are accounted for and that you can buy or sell our fund. If our systems fail, you could be inconvenienced or lose money.

Derivatives risk: Sometimes we use financial contracts to reduce risk. There is a chance that these derivatives won't work in the way we intended, which could result in unexpected gains or losses.

Management risk: People make the investment decisions for our fund. If they make unfavourable decisions, you could lose money.

Sustainability Risk: Returns could deviate from the market or funds that don't promote environmental or social characteristics, or that don't avoid investments/sectors e.g., oil, tobacco.

Charges for this Fund

The fund manager receives an annual fee, which is included in the ongoing charges shown below. You may be eligible for lower entry charges than the maximum shown; ask your financial adviser. Ongoing charges are the same for all investors in the same class. The charges shown below are based on actual fees and expenses as at the Fund's current year-end or semi-annual period.

Entry Charge	none
Exit Charge	none
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Ongoing Charges	0.66%
Charges taken from the Sub-Fund under certain specific conditions	
Performance Fee	none

The Fund does not charge entry or exit charges.
For more information about charges, please see the "Charges" section of the fund's Prospectus, available by calling the Information Line or emailing rutm@rathbones.com.

Past Performance

Basis of performance: Price performance based upon bid to bid prior to 21 January 2019 and single price (mid) thereafter.
Past performance is reported on a full calendar year basis.
Fund inception: 14 May 2002. I-class units were launched 1 March 2012.

Past performance should not be seen as an indication of future performance.

Practical Information

Depository: NatWest Trustee and Depository Services

Additional information: This Key Investor Information Document (KIID) may not contain all the information you need. For additional information on the fund (including the Supplementary Information Document), and on other funds, or to obtain a free copy of the fund's Prospectus or the annual and semi-annual unit holder reports, call the Information Line or write to the registered office, at the address below. The Prospectus and unit holder reports are in English.

Please note this Key Investor Information Document (KIID) may provide data to represent both Accumulation and Income share classes. There may be some differences in applicable charges to specific share classes. Further information is available upon request to the Investment Manager.

For fund performance and most recent unit price, go to rathbonefunds.com.

The up-to-date remuneration policy of the fund manager, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, including the composition of the remuneration committee, is available free of charge upon request at the fund manager's registered office. A summary thereof is available on rathbonefunds.com/literatureitem/remuneration-policy.

Tax: Investors should note that the tax legislation that applies to the fund may have an impact on the personal tax position of their investment in the fund. Contact your adviser to discuss tax treatment and the suitability of this investment.

Notices: Rathbone Unit Trust Management Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the fund. The assets of each of our funds are segregated, meaning that each fund is insulated from any losses or claims associated with other funds.

Royal London Short Duration Credit Fund (Accumulation - Class Z Shares)

A sub-fund of Royal London Bond Funds II ICVC ISIN: GB00BJ4KW917

Managed by Royal London Unit Trust Managers Limited

Objectives and investment policy

Objective The Fund's investment objective is to achieve a total return (combination of capital growth and income) over the medium term (3-5 years) by investing at least 80% in sterling-denominated bonds, of which at least 70% will be short duration (5 years or less).

The Fund's performance target is to outperform the ICE Bank of America Merrill Lynch 1-5 Year Sterling Non-Gilt Index (the "Index") over a rolling 5-year period. For further information on the Fund's index, please refer to the Prospectus.

The Fund is actively managed.

Policy At least 80% of the Fund will be invested in the bonds of companies and other organisations (known as corporate bonds) that are listed in sterling, of which 70% will have a duration of less than five years. Floating-rate notes, asset-backed securities, supranational bonds and agency bonds are included in this segment of the Fund.

The remainder of the Fund's assets may be invested in a range of securities, including UK government bonds, the bonds of companies and other organisations that are listed in a currency other than sterling and preference shares. A limited amount may also be invested in bonds with a duration greater than five years and up to 10% can be invested in other funds, known as collective investment schemes.

A limited amount of the Fund's assets may be invested in other transferable securities and money market instruments. The Fund may also hold a small amount of its portfolio in derivatives (investments that derive their value from another closely related underlying investment) for the purposes of efficient portfolio management.

Cash is unlikely to exceed 5% of assets.

Recommendation The Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Concepts to understand

Bonds are defined as fixed-income investments issued as debt by companies and public bodies to raise finance. Investors in bonds receive a previously agreed, non-variable interest payment until the investment matures. Corporate bonds are those issued by companies to raise finance.

Total Return A total return is a combination of capital growth and income. Capital growth is defined as the rise in an investment's value over time and income as the payment an investment generates, such as dividends or bond coupons.

Rolling 5 Year Period A rolling 5-year period is any period of five years, no matter which day you start on.

Duration is an investment's sensitivity to interest-rate changes measured in years.

Efficient Portfolio Management A list of approved investment techniques, including the use of derivatives, used to protect against excessive risk, reduce cost or generate extra income or growth.

Other share classes may be available as described in the Prospectus. If this is an income share class, any income will be paid out to you. If this is an accumulation share class, any income will be reinvested in the Fund.

Risk and reward profile

Lower risk

Higher risk

Typically lower rewards

Typically higher rewards

The fund is shown in risk category 3 because its simulated price has shown a medium to low level of volatility historically. The Fund was formed by merger and the SRRI was calculated using historic data from the merging fund and may not be a reliable indicator of the future risk profile of the fund. As an investment, bonds are typically more volatile than money market instruments but less volatile than shares. Bonds issued by corporations are typically more volatile than bonds issued by governments.

The risk and reward indicator is not a measure of the expected rise or fall in capital but shows how sharply the Fund's share price has gone up and down historically.

A fund whose share price has experienced sharp or large increases or decreases will sit in a higher risk category, whereas a fund whose share price has experienced small or gradual increases or decreases will sit in a lower risk category.

The indicator is calculated using a standard methodology derived from EU rules.

The risk/reward indicator is an estimate and not a guarantee. Going forward, the Fund's actual volatility could be higher or lower, and its rated risk/reward profile could change. The lowest risk category does not mean the investment is risk free.

The risk indicator does not adequately capture the following risks, which are materially relevant to the Fund:

Investment Risk The value of investments and any income from them may go down as well as up and is not guaranteed. Investors may not get back the amount invested.

Credit Risk Should the issuer of a fixed income security become unable to make income or capital payments, or their rating is downgraded, the value of that investment will fall. Fixed income securities that have a lower credit rating can pay a higher level of income and have an increased risk of default.

EPM Techniques The Fund may engage in EPM techniques including holdings of derivative instruments. Whilst intended to reduce risk, the use of these instruments may expose the Fund to increased price volatility.

Interest Rate Risk Fixed interest securities are particularly affected by trends in interest rates and inflation. If interest rates go up, the value of capital may fall, and vice versa. Inflation will also decrease the real value of capital.

Liquidity Risk In difficult market conditions the value of certain fund investments may be difficult to value and harder to sell, or sell at a fair price, resulting in unpredictable falls in the value of your holding.

Counterparty Risk The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

Charges from Capital Risk Charges are taken from the capital of the Fund. Whilst this increases the yield, it also has the effect of reducing the potential for capital growth.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing the Fund. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest:	
Entry charge	None
Exit charge	None
Charges taken from the fund over a year:	
Ongoing charge	0.31%
Charges taken from the fund under specific conditions:	
Performance fee	None

The entry and exit charge is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. The ongoing charges figure is based on expenses as at 31 December 2020. This figure may vary from year to year and does not include portfolio transaction costs. Ongoing charges are the same for all investors. The annual report for each financial year will include details on the exact charges made.

Past performance

The Fund was launched on 12 April 2019 and the share class on 12 April 2019. The Fund was formed by a merger on 12 April 2019. The performance shown below is that of the merging fund. The merging fund had the same investment objectives and policy as this fund.

Past performance is not a guide to future performance and may not be repeated. The chart shows performance in British Pounds after the ongoing charges and the portfolio transaction costs have been paid. Entry and exit charges are excluded from calculations of past performance. The past performance is calculated in British Pounds, with net dividends reinvested.

Practical information

Depository: HSBC Bank plc

Additional Information: This Key Investor Information Document (KIID) may not contain all the information you need. For additional information on this fund (including the Supplementary Information Document), on other share classes of this fund and on other funds, or to obtain a free copy of the Fund's Prospectus or the annual and semi-annual shareholder reports, call the information line or write to the registered office, details of which are below. Alternatively, visit www.rlam.co.uk. The Prospectus and shareholder reports are in English.

This document describes one share class of the Fund. The Prospectus and annual and semi-annual shareholder reports are prepared for the entire fund across all share classes.

For fund performance and most recent share price, visit www.rlam.co.uk.

Should you wish to switch share classes or funds, please see the "Switching" section of the Prospectus for details.

Tax: Investors should note that the tax legislation that applies to the Fund may have an impact on the personal tax position of their investment in the Fund. Contact your adviser to discuss tax treatment, suitability of this investment, and other questions.

Notices: Royal London Unit Trust Managers Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.

Publication Date: This Key Investor Information is accurate as at 15 August 2023

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Royal London Short Term Fixed Income Fund (Accumulation - Class Y Shares)

A sub-fund of Royal London Bond Funds ICVC ISIN: GB00BMNR1H58
Managed by Royal London Unit Trust Managers Limited

Objectives and investment policy

Objective The Fund's investment objective is to achieve a total return over rolling 12-month periods by primarily investing in Short Term Fixed Income securities. The Fund's performance target is to outperform, before the deduction of charges, the Bank of England Sterling Overnight Interbank Average (SONIA) by 0.50% per annum over rolling 12-month periods. The Fund is actively managed, meaning that the manager will use their expertise to select investments to meet the objective.

Policy The Fund will invest at least 70% in Short Term Fixed Income Securities. Short Term Fixed Income securities are instruments, which will have a duration of 0-18 months. In a normal market environment these instruments can be easily and quickly liquidated. Examples of these include money market instruments, government bonds and corporate bonds.

A minimum of 50% of the Fund will be invested in a combination of money market instruments, including cash, time deposits, certificates of deposit and commercial paper and floating rate notes and Government bonds. In exceptional circumstances the Fund may invest up to 100% in money market instruments.

The Fund will also invest in a range of other securities, which includes corporate bonds and supranational & agency bonds, Covered bonds and/or transferable securities. The Fund may also make use of reverse repurchase agreements. The Fund will not invest in other funds, known as CIS.

The Fund may also hold derivatives for the purposes of efficient portfolio management.

Money market instruments used by the Fund will have a minimum rating of A-1, P-1 or F1. Bonds must have a minimum rating of AA-, Aa3 or AA-. Assets may exceed 397 days to maturity. There are no weighted average maturity or weighted average life constraints on the Fund.

The Fund's holdings are also subject to predefined ethical criteria. The Fund's manager will not consider the bonds or other securities of companies or other organisations that generate more than 10% of their turnover from either one or a combination of the following: Armaments, Tobacco or Fossil Fuels.

Recommendation Investors who seek a total return or a short-term investment option.

Concepts to understand

Bonds Securities that represent an obligation to repay a debt, with interest. Investment grade bonds are high quality bonds that are viewed as being highly likely to make all scheduled payments of interest and principal. Low quality bonds carry higher risk but also typically pay higher rates of interest.

Derivative A financial instrument whose price is dependent upon or derived from one or more underlying asset.

Efficient Portfolio Management An investment technique that allows the use of derivatives for at least one of the following purposes: to increase the value of the Fund; to protect the value of the Fund or to reduce the risks of certain investments.

Money market instruments Investments that pay interest, have a short duration and are designed to maintain a stable value.

Floating rate notes Bonds that pay a variable rate of interest. The interest rate is tied to a benchmark and adjusted periodically.

Covered bonds Bonds or notes that are backed by cash flows from mortgages or other debt.

You can buy and sell your shares on each working day, except public holidays, at 12:00 noon if you tell us before 12:00 noon that you want to do so. Instructions received after 12:00 noon will be processed at 12:00 noon on the following working day.

Other share classes may be available as described in the Prospectus. If this is an income share class, any income will be paid out to you. If this is an accumulation share class, any income will be reinvested in the Fund.

Risk and reward profile

Lower risk

Higher risk

Typically lower rewards

Typically higher rewards

The fund is shown in risk category 1 because its share price has shown a very low level of volatility historically. The indicator has been calculated using historical data and may not be a reliable indication of the future risk profile of the Fund. As an investment, bonds are typically more volatile than money market instruments but less volatile than shares. Bonds issued by corporations are typically more volatile than bonds issued by governments.

The risk and reward indicator is not a measure of the expected rise or fall in capital but shows how sharply the Fund's share price has gone up and down historically.

A fund whose share price has experienced sharp or large increases or decreases will sit in a higher risk category, whereas a fund whose share price has experienced small or gradual increases or decreases will sit in a lower risk category.

The indicator is calculated using a standard methodology derived from EU rules.

The risk/reward indicator is an estimate and not a guarantee. Going forward, the Fund's actual volatility could be higher or lower, and its rated risk/reward profile could change. The lowest risk category does not mean the investment is risk free.

The risk indicator does not adequately capture the following risks, which are materially relevant to the Fund:

Investment Risk The value of investments and any income from them may go down as well as up and is not guaranteed. Investors may not get back the amount invested.

Credit Risk Should the issuer of a fixed income security become unable to make income or capital payments, or their rating is downgraded, the value of that investment will fall. Fixed income securities that have a lower credit rating can pay a higher level of income and have an increased risk of default.

EPM Techniques The Fund may engage in EPM techniques including holdings of derivative instruments. Whilst intended to reduce risk, the use of these instruments may expose the Fund to increased price volatility.

Interest Rate Risk Fixed interest securities are particularly affected by trends in interest rates and inflation. If interest rates go up, the value of capital may fall, and vice versa. Inflation will also decrease the real value of capital.

Counterparty Risk The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

Government and Public Securities Risk The Fund can invest more than 35% of net assets in different Transferable Securities and Money Market Instruments issued or guaranteed by any EEA State, its local authorities, a third country or public international bodies of which one or more EEA States are members.

Inflation Risk Where the income yield is lower than the rate of inflation, the real value of your investment will reduce over time.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing the Fund. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest:	
Entry charge	None
Exit charge	None
Charges taken from the fund over a year:	
Ongoing charge	0.15%
Charges taken from the fund under specific conditions:	
Performance fee	None

The entry and exit charge is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. Ongoing charge is based on the Fund Management Fee (FMF), which is the periodic fee paid to the ACD to cover the expenses of the Fund. This figure does not include portfolio transaction costs. Ongoing charges are the same for all investors in the share class.

Past performance

The graph shows fund performance over the past 10 years where available. The figure for a given year shows how much the Fund increased or decreased in value during that year. These results reflect ongoing charges taken from the Fund, but do not reflect any entry charges you might have to pay. The Fund was launched on 15 June 2011 and the share class on 12 June 2014.

Past performance is not a guide to future performance and may not be repeated. The chart shows performance in British pounds after the ongoing charges and the portfolio transaction costs have been paid. Entry and exit charges are excluded from calculations of past performance. The past performance is calculated in British Pounds, with net dividends reinvested. From the 20th July 2020 the fund introduced a target to outperform the Bank of England Sterling Overnight Interbank Average (SONIA) by 0.50% per annum over rolling 12-month periods. Prior to this date the fund's performance was compared against SONIA over rolling 12 month periods.

Royal London Sustainable Leaders Trust (Accumulation - Class C Shares)

ISIN: GB00B7V23Z99

Managed by RLUM Limited

Objectives and investment policy

Objective The Fund's investment objective is to achieve capital growth over the medium term (3-5 years) by investing at least 80% in the shares of UK companies listed on the London Stock Exchange that are deemed to make a positive contribution to society. Investments in the Fund will adhere to the Investment Adviser's ethical and sustainable investment policy.

The Fund's performance target is to outperform, after the deduction of charges, the FTSE All-Share Index (the "Index") over a rolling 5-year period. For further information on the Fund's index, please refer to the Prospectus. The Fund is actively managed.

Policy At least 80% of the Fund will be invested in shares of UK companies which are listed on the London Stock Exchange.

Where the manager believes it is in the best interests of the Fund, they may invest up to 20% of the Fund's assets in shares of overseas companies. The Fund focuses on the sustainability of the products and services of the companies it invests in, as well as their standards of environmental, social & governance (ESG) management, alongside financial analysis. For further details of the Investment Adviser's ethical and sustainable investment policy please refer to the Prospectus. Investors can view the current policy at <https://www.royallondon.com/existing-customers/yourproducts/manage-your-isa-or-unit-trust/rlum-isa-overview/>.

The Fund may invest up to 10% in other investment funds, known as collective investment schemes. Typically only a small portion of assets will be invested in cash.

The Fund may also invest a small amount of its portfolio in derivatives (investments that derive their value from another closely related underlying investment) for efficient portfolio management (EPM).

Recommendation This Fund may not be appropriate for investors who plan to withdraw their money within five years. You should aim to keep your units for at least five years, although you can sell them at any time.

Concepts to understand

Capital Growth The rise in an investment's value over time.

5-Year Rolling Period Any period of five years, no matter which day you start on.

Environmental, social and governance A list of predefined criteria that determines how a company operates in terms of sustainability and overall corporate governance.

Efficient Portfolio Management A list of approved investment techniques, including the use of derivatives, used to protect against excessive risk, reduce cost or generate extra income or growth.

You can buy and sell your shares on each working day, except public holidays, at 12:00 noon if you tell us before 12:00 noon that you want to do so. Instructions received after 12:00 noon will be processed at 12:00 noon on the following working day.

Other share classes may be available as described in the Prospectus. If this is an income share class, any income will be paid out to you. If this is an accumulation share class, any income will be reinvested in the Fund.

Risk and reward profile

Lower risk

Higher risk

Typically lower rewards

Typically higher rewards

The fund is shown in risk category 6 because its unit price has shown a high level of volatility historically. The indicator has been calculated using historical data and may not be a reliable indication of the future risk profile of the Fund. As an investment, shares are typically more volatile than money market instruments and bonds.

The indicator has been calculated using historical data and may not be a reliable indication of the future risk profile of the Fund. This Fund has historically been primarily invested in shares.

The risk and reward indicator is not a measure of the expected rise or fall in capital but shows how sharply the Fund's share price has gone up and down historically.

A fund whose share price has experienced sharp or large increases or decreases will sit in a higher risk category, whereas a fund whose share price has experienced small or gradual increases or decreases will sit in a lower risk category. The indicator is calculated using a standard methodology derived from EU rules.

The risk/reward indicator is an estimate and not a guarantee. Going forward, the Fund's actual volatility could be higher or lower, and its rated risk/reward profile could change. The lowest risk category does not mean the investment is risk free.

The risk indicator does not adequately capture the following risks, which are materially relevant to the Fund:

Investment Risk The value of investments and any income from them may go down as well as up and is not guaranteed. Investors may not get back the amount invested.

Concentration risk The price of Funds that invest in a reduced number of holdings, sectors, or geographical areas may be more heavily affected by events that influence the stockmarket and therefore more volatile.

EPM Techniques The Fund may engage in EPM techniques including holdings of derivative instruments. Whilst intended to reduce risk, the use of these instruments may expose the Fund to increased price volatility.

Exchange Rate Risk Investing in assets denominated in a currency other than the base currency of the Fund means the value of the investment can be affected by changes in exchange rates.

Counterparty Risk The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

Responsible Investment Risk The Fund can only invest in holdings that demonstrate compliance with certain sustainable indicators or ESG characteristics. This reduces the number securities in which the Fund can invest and there may as a result be occasions where it forgoes more strongly performing investment opportunities, potentially underperforming non-sustainable funds.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing the Fund. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest:	
Entry charge	None
Exit charge	None
Charges taken from the fund over a year:	
Ongoing charge	0.76%
Charges taken from the fund under specific conditions:	
Performance fee	None

The entry and exit charge is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. The ongoing charges figure is based on expenses as at 31 December 2022. This figure may vary from year to year and does not include portfolio transaction costs. Ongoing charges are the same for all investors.

Past performance

The graph shows fund performance over the past 10 years where available. The figure for a given year shows how much the Fund increased or decreased in value during that year. These results reflect ongoing charges taken from the Fund, but do not reflect any entry charges you might have to pay. The Fund was launched on 29 May 1990 and the share class on 4 December 2012.

Past performance is not a guide to future performance and may not be repeated. The chart shows performance in British Pounds after the ongoing charges and the portfolio transaction costs have been paid. Entry and exit charges are excluded from calculations of past performance. The past performance is calculated in British Pounds, with net dividends reinvested.

Schroder Global Sustainable Value Equity Fund

an Authorised Unit Trust of Schroder Unit Trusts Limited
Class Z Accumulation GBP (GB00BF783V38)

This fund is managed by Schroder Unit Trusts Limited, which is a member of the Schroders Group.

Objectives and investment policy

Objectives

The fund aims to provide capital growth in excess of the MSCI World (Net Total Return) Index (after fees have been deducted) over a three to five year period by investing in equity and equity related securities of companies worldwide which meet the investment manager's sustainability criteria.

Investment policy

The fund is actively managed and invests at least 80% of its assets in a concentrated range of equity and equity related securities of companies worldwide which meet the investment manager's sustainability criteria (please see the fund Characteristics section of the prospectus relating to the fund). The fund typically holds 30 to 70 companies.

The fund focuses on companies that have certain "Value" characteristics. Value is assessed by looking at indicators such as cash flows, dividends and earnings to identify securities which the manager believes have been undervalued by the market.

The fund maintains a higher overall sustainability score than the MSCI World (Net Total Return) index, based on the investment manager's rating system. More details on the investment process used to achieve this can be found in the fund Characteristics section.

The fund does not directly invest in certain activities, industries or groups of issuers above certain limits listed under "Sustainability Information" on the fund's webpage, accessed via

www.schroders.com/en/uk/private-investor/gfc.

The fund invests in companies that have good governance practices, as determined by the investment manager's rating criteria (please see the fund Characteristics section of the prospectus relating to the fund).

The fund may invest in companies that the investment manager believes will improve their sustainability practices within a reasonable timeframe, typically up to three years.

The investment manager may also engage with companies held by the fund to challenge identified areas of weakness on sustainability issues. More details on the investment manager's approach to sustainability and its engagement with companies are available on the website.

<https://www.schroders.com/en/uk/private-investor/strategic-capabilities/sustainability/>

The fund may also invest directly or indirectly in other securities (including in other asset classes), countries, regions, industries or currencies, collective investment schemes (including Schroder funds), warrants and money market instruments, and hold cash.

The fund may use derivatives with the aim of reducing risk or managing the fund more efficiently (for more information please refer to section 6 of Appendix I of the prospectus).

Benchmark

The fund's performance should be assessed against its target benchmark, being to exceed the MSCI World (Net Total Return) Index, and compared against the MSCI World Value (Net Total Return) Index and the Investment Association Global sector average return.

Dealing frequency

You may redeem your investment upon demand. This fund deals daily.

Distribution policy

This unit class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the unit class.

Risk and reward profile

The risk and reward indicator

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Risk factors

Concentration risk: The fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the fund, both up or down.

Sustainable Investing Risk: The fund applies sustainability criteria in its selection of investments. This investment focus may limit the fund's exposure to companies, industries or sectors and the fund may forego investment opportunities that do not align with its sustainability criteria chosen by the investment manager. As investors may differ in their views of what constitutes

sustainability, the fund may invest in companies that do not reflect the beliefs or values of any particular investor.

Currency risk: The fund may lose value as a result of movements in foreign exchange rates, otherwise known as currency rates.

Derivatives risk: Derivatives, which are financial instruments deriving their value from an underlying asset, may be used to manage the portfolio efficiently. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

Operational risk: Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

IBOR risk: The transition of the financial markets away from the use of interbank offered rates (IBORs) to alternative reference interest rates may impact the valuation of certain holdings and disrupt liquidity in certain instruments. This may impact the investment performance of the fund.

Charges

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.93%
Charges taken from the fund under certain specific conditions	
Performance fee	
None	

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2022 and may vary from year to year. The ongoing charge figure excludes portfolio transaction costs. The charges are mostly, if not exclusively, the Schroders Annual Charge (as may be discounted for retail unit classes depending on the size of the fund) but certain additional expenses may be charged as set out in the prospectus. The Schroders Annual Charge (without any discount) for this unit class of the fund is 0.93%. The fund's annual report for each financial year will include details on the exact charges made including any discounts.

Please see the prospectus for more details about the charges.

Past performance

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in British pound after the ongoing charges and the portfolio transaction costs have been paid.

The fund was launched on 24/03/2006.

The shareclass was launched on 10/04/2018.

Performance figures are only available since the launch of the respective share class.

Performance achieved between 2011 and 2018 was achieved in circumstances that no longer apply. Please note the fund's name, objective and investment policy changed on 14 February 2018. The fund's benchmarks have changed as follows:

- From 14 February 2018 to 31 March 2021 (Target benchmark: FTSE Customised All-Share ex Ethically Screened (Gross Total Return) Index. Comparator benchmark: FTSE All Share (Gross Total Return) Index).
- From 31 March 2021 to 15 August 2021 (Target benchmark: FTSE Customised All-Share ex Ethically Screened (Gross Total Return) Index. Comparator benchmarks: FTSE All Share (Gross Total Return) Index and the MSCI UK Value (Gross Total Return) Index).
- From 16 August 2021 onwards (Target benchmark: MSCI World (Net Total Return). Comparator benchmarks: MSCI World Value (Net Total Return) Index and the Investment Association Global sector average return).

■ Z Accumulation GBP (GB00BF783V38)
■ MSCI World (Net Total Return) Index
■ MSCI World Value (Net Total Return) Index
■ Investment Association Global sector average return
■ FTSE Customised All-Share ex Ethically Screened (Gross Total Return) Index
■ FTSE All Share (Gross Total Return) Index
■ MSCI UK Value (Gross Total Return) Index

Practical information

Trustee:J. P. Morgan Europe Ltd.

Further Information:You can get further information about this fund, including the prospectus, latest annual report, any subsequent half-yearly reports and the latest price of units from www.schroders.com/ukinvestor and from Schroders, PO Box 1402, Sunderland, SR43 4AF, England, telephone 0800 182 2399. They are in English, free of charge.

Tax Legislation: The fund is subject to UK tax legislation which may have an impact on your personal tax position.

Liability: Schroder Unit Trusts Ltd may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the fund's prospectus.

Switches: Subject to conditions, you may apply to switch your investment into another share class within this fund or in another Schroder fund. Please see the prospectus for more details.

Remuneration policy: A summary of Schroders' remuneration policy and related disclosures is at www.schroders.com/remuneration-disclosures. A paper copy is available free of charge upon request.

The policy includes a description of how remuneration and benefits are calculated & the identities of persons responsible for awarding the remuneration and benefits.

Glossary: You can find an explanation of some of the terms used in this document at www.schroders.com/ukinvestor/glossary.

Benchmark: The target benchmark has been selected because it is representative of the type of investments in which the fund is likely to invest, and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. The comparator benchmarks have been selected because the investment manager and the manager believe that these benchmarks are a suitable comparison for performance purposes given the fund's investment objective and policy.

Stewart Investors Asia Pacific Sustainability Fund Class B (Accumulation) GBP

a sub-fund of First Sentier Investors ICVC (the Company)

ISIN GB00B0TY6V50

First Sentier Investors (UK) Funds Limited (trading as Stewart Investors), the authorised corporate director of the Company

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Objectives and investment policy

Objective: The Fund aims to achieve capital growth over the long term (at least five years).

Policy: The Fund invests in shares of companies based in or where the majority of their activities take place in the Asia Pacific region excluding Japan and that are listed on exchanges worldwide.

The Fund invests in shares of high quality companies which are positioned to contribute to, and benefit from, sustainable development.

Investment decisions around high quality companies are based on three key points:

- ° Quality of management including integrity, attitude to environmental and social impacts, corporate management, long term performance and risk.
- ° Quality of the company including its social usefulness, their environmental impacts and efficiency and responsible business practices.
- ° Quality of the company's finances and their financial performance.

Sustainability is a key part of the approach.

The Fund may invest up to 10% in other funds.

The Fund will only use derivatives to reduce risk or to manage the Fund more efficiently in limited cases.

Strategy: The Manager's investment strategy is founded on the principle of stewardship, allocating capital to high quality companies with sound

growth prospects and strong management teams. The Manager's investment style is inherently long-term and conservative, seeking to buy and hold high quality companies that can deliver acceptable returns over the long-term (at least five years).

Benchmark: The Fund's performance is compared against the value of the MSCI AC Asia Pacific ex Japan Index.

The Fund's manager may use its discretion when deciding which investments should be held by the Fund.

The Fund is actively managed; investment of the Fund's assets is not constrained by the benchmark composition and the Fund's manager has discretion within the Fund's investment policy to invest in assets without regard to the benchmark.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within five years.

The Fund will not pay any income out; instead any income will be reflected in the value of your shares.

You can buy and sell shares in the Fund on any business day. As long as we receive your instruction before 12 noon (UK time), shares will be bought and sold at that day's price.

Risk and reward profile

- The synthetic risk reward indicator (the SRRI) rating is not a measure of the risk of you losing the entire value of your investment but describes how much the value of the share class has gone up and down in the past. Where a share class has not yet launched, the SRRI is calculated using representative data.
- The SRRI rating is based on historical data which may not be a reliable indication of the future risks and rewards of the share class.
- We cannot guarantee that the rating of the share class will remain the same; it may change over time.
- Even the lowest rating 1 does not mean a risk free investment.
- On a scale of 1 (less risky) to 7 (more risky), this share class has a rating of 5 due to its past performance (or representative data) and the nature of its investments. Categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level, and 6-7 a high level.

- Risk is taken in order to make a higher potential return; the more risk a fund takes, the higher the potential return but the greater the risk of loss.
 - The value of the Fund and its return is not guaranteed and may fall as well as rise. You may get back significantly less than you originally invested. Material risks not adequately captured by the SRRI:
 - **Emerging market risk:** Emerging markets tend to be more sensitive to economic and political conditions than developed markets. Other factors include greater liquidity risk, restrictions on investment or transfer of assets, failed/delayed settlement and difficulties valuing securities.
 - **Currency risk:** the Fund invests in assets which are denominated in other currencies; changes in exchange rates will affect the value of the Fund and could create losses. Currency control decisions made by governments could affect the value of the Fund's investments and could cause the Fund to defer or suspend redemptions of its shares.
 - **Single country / specific region risk:** investing in a single country or specific region may be riskier than investing in a number of different countries or regions. Investing in a larger number of countries or regions helps spread risk.
- For further information on risks, please refer to the Risk Factors section in the Company's prospectus.

Charges for this Fund

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	4.00%
Exit charge	N/A

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the fund over a year

Ongoing charge	0.93%
----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	N/A
-----------------	-----

The entry and exit charges shown are the maximum you will need to pay. In some cases you might pay less - you can find out the actual entry and exit charges from your financial adviser.

The ongoing charges figure shown here is an estimate of the charges and may vary from year to year. An estimate is being used following our periodic reassessment with effect from 01 December 2022. The figure excludes portfolio transaction costs which are paid from assets of the Fund and performance fees, if any. The next Company annual report for the financial year will include details on the exact charges made.

There are fees for switching between sub-funds. The fee for switching into the Fund is 0.5%.

Further information can be found in the Buying, Selling and Switching Shares section of the Company's prospectus.

Past performance

■ Stewart Investors Asia Pacific Sustainability Fund Class B (Accumulation) GBP

■ MSCI AC Asia Pacific ex Japan Net Index (GBP)

Past performance is not a reliable guide to future performance. The past performance shown here includes fees, any reinvested income and tax.

The Fund launched on 19 December 2005.

The Share Class launched on 19 December 2005. The past performance of the Share Class is calculated in GBP.

The past performance of the benchmark is calculated in GBP

Practical information

Depository: The Bank of New York Mellon (International) Limited

Further information: The Fund forms part of the First Sentier Investors ICVC (the Company). The prospectus, annual and semi-annual reports of the Company as a whole are available free of charge on firstsentierinvestors.com or by contacting First Sentier Investors, PO Box 404, Darlington, DL1 9UZ. All documents are available in English.

Other practical information: The Fund's share price and other information about the Fund is available at firstsentierinvestors.com. The prospectus, annual and semi-annual reports contain information about all of the sub-funds and share classes of the Company.

Tax legislation: The Fund is subject to UK tax laws. This may have an impact on your personal tax position. For further details, please speak to your tax adviser.

Liability statement: First Sentier Investors (UK) Funds Limited (as management company) may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus for the Company.

Fund information: Each sub-fund of the Company is responsible for meeting its own debts. The sub-funds are segregated by law. This means that investments of the Fund cannot be used to pay the debts of the other sub-funds.

You can exchange shares in the Fund for shares in another sub-fund, which is called switching. There may be a charge for switching, as indicated above in 'Charges for this Fund'.

Remuneration: Information on the current remuneration policy of First Sentier Investors (UK) Funds Limited, including a description of how remuneration and benefits are calculated and the identity of persons responsible for awarding the remuneration and benefits, is available at firstsentierinvestors.com. A paper copy of this information is available free of charge upon request from First Sentier Investors, PO Box 404, Darlington, DL1 9UZ.

Stewart Investors Worldwide Sustainability Fund Class A (Accumulation) GBP

a sub-fund of First Sentier Investors ICVC (the Company)

ISIN GB00B8ND6Q99

First Sentier Investors (UK) Funds Limited (trading as Stewart Investors), the authorised corporate director of the Company

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Objectives and investment policy

Objective: The Fund aims to achieve capital growth over the long term (at least five years).

Policy: The Fund invests in shares of companies around the world and that are listed on exchanges worldwide. The Fund may invest in both developed and emerging market countries. Emerging markets are countries that are progressing toward becoming advanced, usually shown by some development in financial markets, the existence of some form of stock exchange and a regulatory body.

The Fund invests in shares of high quality companies which are positioned to contribute to, and benefit from, sustainable development.

Investment decisions around high quality companies are based on three key points:

- ° Quality of management including integrity, attitude to environmental and social impacts, corporate management, long term performance and risk.
- ° Quality of the company including its social usefulness, their environmental impacts and efficiency and responsible business practices.
- ° Quality of the company's finances and their financial performance.

Sustainability is a key part of the approach.

The Fund may invest up to 10% in other funds.

The Fund will only use derivatives to reduce risk or to manage the Fund more efficiently in limited cases.

Strategy: The Manager's investment strategy is founded on the principle of stewardship, allocating capital to high quality companies with sound growth prospects and strong management teams. The Manager's investment style is inherently long-term and conservative, seeking to buy and hold high quality companies that can deliver acceptable returns over the long-term (at least five years).

Benchmark: The Fund's performance is compared against the value of the MSCI AC World Index and the Fund is included in the Investment Association's Global Sector.

The Fund's manager may use its discretion when deciding which investments should be held by the Fund.

The Fund is actively managed; investment of the Fund's assets is not constrained by the benchmark composition or sector requirements and the Fund's manager has discretion within the Fund's investment policy to invest in assets without regard to the benchmark.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within five years.

The Fund will not pay any income out; instead any income will be reflected in the value of your shares.

You can buy and sell shares in the Fund on any business day. As long as we receive your instruction before 12 noon (UK time), shares will be bought and sold at that day's price.

Risk and reward profile

- The synthetic risk reward indicator (the SRRI) rating is not a measure of the risk of you losing the entire value of your investment but describes how much the value of the share class has gone up and down in the past. Where a share class has not yet launched, the SRRI is calculated using representative data.
- The SRRI rating is based on historical data which may not be a reliable indication of the future risks and rewards of the share class.
- We cannot guarantee that the rating of the share class will remain the same; it may change over time.
- Even the lowest rating 1 does not mean a risk free investment.
- On a scale of 1 (less risky) to 7 (more risky), this share class has a rating of 5 due to its past performance (or representative data) and the nature of

its investments. Categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level, and 6-7 a high level.

- Risk is taken in order to make a higher potential return; the more risk a fund takes, the higher the potential return but the greater the risk of loss.
- The value of the Fund and its return is not guaranteed and may fall as well as rise. You may get back significantly less than you originally invested. Material risks not adequately captured by the SRRI:

- **Emerging market risk:** Emerging markets tend to be more sensitive to economic and political conditions than developed markets. Other factors include greater liquidity risk, restrictions on investment or transfer of assets, failed/delayed settlement and difficulties valuing securities.

- **Currency risk:** the Fund invests in assets which are denominated in other currencies; changes in exchange rates will affect the value of the Fund and could create losses. Currency control decisions made by governments could affect the value of the Fund's investments and could cause the Fund to defer or suspend redemptions of its shares.

For further information on risks, please refer to the Risk Factors section in the Company's prospectus.
